

Gerd Jahnke

237 Rendsburg, 26. 4. 1964

Augustenburger Str. 2

My dear Prof. Gökbilgin, my dear friend;

Thanks for your letter from 18.1.. Excuse my silence in the meantime, but consciously, I would to pass away some time.

How bheerful, I wrote to Mr. Dolunay and you write: it is an old colleague and friend of me. These is a small world. I got from Mr. Dolunay a very good Expertise about the pieces in questions. If you are interested, I enclosed photos of a vessel (only the head of this bird is imitated), phrygian of 7 th. century. I never use this photos.

In this summer, you will have to trip to East Anatolia. Therefore, almost I could to envy you. It was a very cin-
cerely proposal - you gave - to visit Turkey. Thank you very much. Every other year, it is my greatest wish to see Turkey and Egypt. Because Egypt, it will be a vain desire - so I hope, one day, it will be possible to visit Turkey.

Only the problem is the large distance. You know, I have a little " Fiat " (500 ccm); and for this distance: Rendsburg - München - Klagenfurt - Zagreb - Beograd - Xanthi - Edirne - Istanbul, I used 6 days. And the same time for the return. Only for the travel I must calculate of 12 days, better 14 days. My holidays, altogether are 21 days. One week of stayment in Turkey is a very bad relation for two weeks of driving. And a journey by flight is not realize. But I hope, previously in some years, I have a largest motor car and then, Istanbul and Turkey is approached in the foreground. But one day, I come, because I must fetsch a plate with types of potter's earth from Hethiter.

At Easter, for 5 days, my wife, my brother and I, we travel to Paris. For each way, we used with our motor car 18 hours. All years, we visit Italy, Austria and Switzerland but never France. These, it was our first travel to Paris. We are full

our stay, we had our hotel at Quartier Latin, nearly of Boulevard Saint-Germain. This central part of Paris was very suitable for all the enterprise, we have had. One day, I reserved for a visit of Louvre; but only the departments of Egypt, Greece, Etruscan and Hethiter. Therefore it is so much to see, after some hours, peoples get weariness. The other days we inspected the wellknown sights of this town and not to forget, one night the "Place Pigalle". Our resolution: next year at Easter we will see Paris again.

This summer, our holidays we will spend at Italy again. At Meran, Vicenza and Firenze, there are good friends of me, occupied with previous history. And I hope to get some pieces for my collection.

On the envelope you will find the stamps with value 1,- and 2,- DM. I hope, both you get uninjured. Because I am not a collector of stamps (only my wife), it is better, each time you write me your wishes. Like an "outsider" it is not single to decide, what is the right for you. Thanks for your offer, concerning stamps. There is no specific wish of my wife. She collected from foreign countries motives like: flowers and animals and stamps of Europa-motives.

Health for you and best wishes and greetings,

Yours sincerely

Ernst Jander
