Per aziz Dear Mr. Tayyib Bey,

A short time ago our friend Miss S. Skelliter went to Turkey and we asked her to transmit all our best salaams to you, but I am not sure whether she will remain in Istanbul long enough to meet you. So I am writing to you in the hope to have your good news. Where have you spent your vacation this year. How are the children growing. Is there any hope that to all our unvolun-
tary misunderstandings of last year have become غائب

relation is still uncertain!

Are you going to Delhi! Alas! the travelling expenses are
unavoidable and we hear that winter in Delhi may be
another cold (in the evenings). Besides, the full heat ab-

is the memory of our most kind
hostess + 1959.)

With us 1963 has been more
clement (until now) than 1962. Only
the winter was unpleasant and
severe. Moreover, we have been over-
whelmed with a mass of proofs which
we had to correct. This is very diffi-
cult with my weak eyes and no
progress would have been made without
the constant help of my wife, who
herself publishes translations into
English and teaches Russian at a
school. My working hours are now
very short but I am still trying
to do what I can.

With all best wishes to Lemn-
ham, yourself & the children. Yours sincerely
V. Annandale
